OC-1076-84  
6 December 1984

MEMORANDUM FOR: Deputy Director for Administration

FROM: William F. Donnelly   
Director of Communications

SUBJECT: Weekly Report

1. OC has replaced the workhorse Model 28 teletype equipment, in use for the past two decades as our primary on-line communications terminal, with the Wang Intelligent Communications Terminal (ICT)

early 81-83.

2. The second phase of the Optimized Automated Relay Switch (OARS) Project, designed to enhance existing switching capabilities within the OC Network, was brought on-line at  on 3 December and is undergoing acceptance testing.

3. The Office of Communications spent approximately \$370K on external training during FY-84, which is a 23 percent increase over FY-83. While inflation had some impact on costs, the 23 percent increase was due primarily to a 15 percent enrollment increase in training contracts with commercial companies.
